- The Development of UTASTAR Method in Fuzzy Environment for Supplier Selection
https://www.researchgate.net/profile/Mohammad_arash_Ehsanifar/publication/281108944_The_Development_of_UTASTAR_Method_in_Fuzzy_Environment_for_Supplier_Selection/links/55d6bb3408aec156b9a87161/The-Development-of-UTASTAR-Method-in-Fuzzy-Environment-for-Supplier-Selection.pdf#page=7
- Application de la méthode UTA à un problème de sélection de points de vente mettant en jeu des critères multiples http://www.numdam.org/article/RO_1983__17_2_121_0.pdf

Décision

- Multiple Criteria Decision Analysis - Salvatore Greco, Matthias Ehrgott, Jose Rui Figueira. 2004 [livre]
 - Introduction > Human Reflection About Decision

been making decisions. Consequently, despite the diversity of MCDA approaches, methods and techniques, the basic ingredients of MCDA are very simple: A finite or infinite set of actions (alternatives, solutions, courses of action, ...), at least two criteria, and, obviously, at least one decision-maker (DM). Given these basic elements, MCDA is an activity which helps making decisions mainly in terms of choosing, ranking, or sorting the actions.

- La Conception et l'implémentation d'un outil d'aide à la décision multicritères intégrant les concepts de la gestion des connaissances et du cycle de vie: application de la chaîne d'approvisionnement humanitaire :
